

# SCHOOL'S OUT

With school's being out for summer, there are a lot of parents in the UK who are currently struggling with their newly appointed job as a stand-in teacher.

So, we have tried to get creative in a bid to help out, as establishing a distraction-free study environment for young people, is imperative to the quality of their learning.

Meet our Titan Exam Table and Folding Chair! Usually found in an exam hall, we're rolling these products out to homes to suit the needs of the nation.

Where space is at a premium, this fold-away combo is exactly what you need to create a child-friendly working space. Both the Titan folding Chair and Desk have a wipe-clean surface, have a recommended usage time of 8 hours (sorry kids!) and can fold down in a matter of seconds.
